reddot award  
winner

### Award-winning design

The PowerCube product family won several awards, amongst which the coveted Red Dot award, a prize for good industrial design.

### No obstructions

Plugs cannot obstruct each other, as each plug connects to a different side of the PowerCube.

# the PowerCube

### USB-output

The USB-versions of the PowerCube come with powered dual USB ports, enabling you to charge a wide variety of devices, including tablet computers (like the iPad) and smartphones.

### Mounting system

Both | Extended | versions of the PowerCube come with a stick-on mounting system.

With the included mount, the | Extended | versions of the PowerCube can be placed anywhere: on your desk, wall-mounted, ...the options are endless.

We carefully selected the sticky tape to be as powerful as possible, and yet leave no traces if you would ever decide to remove it, which is as easy as mounting it: just pull the tabs and the dock will come off.

Twist and lock

### Safety

All types of the PowerCube are thoroughly tested, and certified depending on the standards that are applicable within your region. Also, all contacts are grounded and child-proof.

### Several socket types available

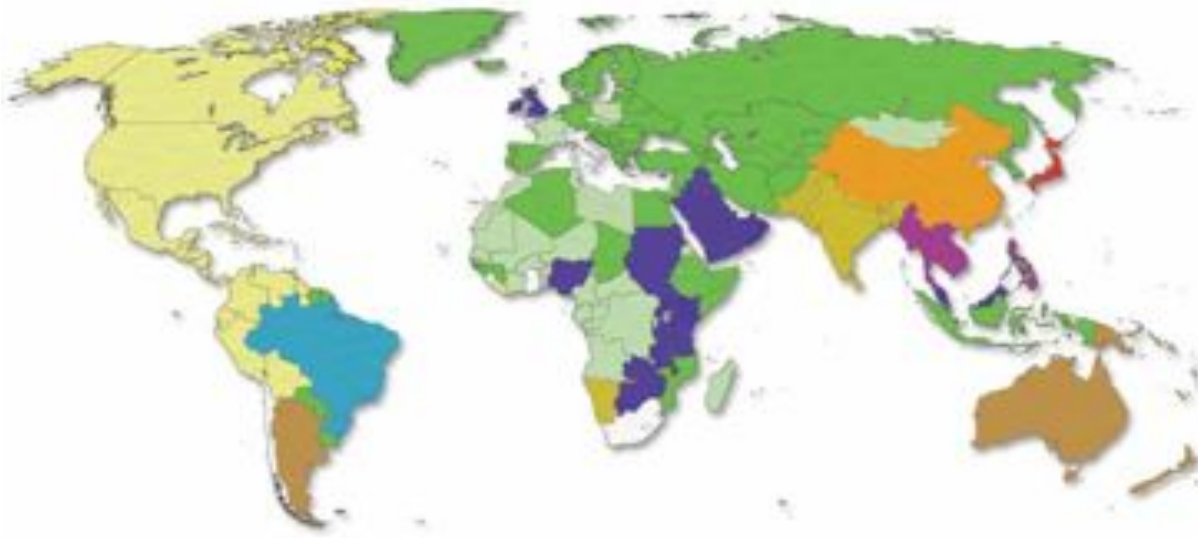

As throughout the world various kinds of sockets are in use, we designed PowerCubes for a variety of different socket types. On the next page of this brochure you can find what version is suitable for your country.

### CableFix

Besides a docking station, both | Extended | versions of the PowerCube also include a CableFix, to align the power cord neatly.

# socket types

Throughout the world, many types of electrical outlets are in use. As you can see on the map beneath, we offer the majority of socket types. All these types are identified by a letter, beneath the map you can see what letter corresponds to your country:

# PowerCube ReWirable USB

## The PowerCube ReWirable USB: a different standard for travel adapters

Travel adapters have several shortcomings:

- **safety:** most travel adapters cannot be certified because of their dimensions
- only **one outlet:** nowadays we probably carry more than one electronic device with us.
- we believe more consumers use travel adapters to plug their **home device into a foreign socket**, than a foreign plug to a home socket. Think about it... and look what is available on the market.
- **optimal use;** as product designers we hate it when products are not used frequently.  
With travel adapters this is the case: when returning home they end up in a drawer. Such a waste!

Therefore it is clear that a different standard is required for the travel market: the PowerCube ReWirable USB.

included 1m 3-pin IEC Schuko cable

### Universal socket - plug connection

The PowerCube ReWirable USB comes with a worldwide standard receptacle (fused for max 6A). Plug in an old computer cable and convert your PowerCube into an extension cord.

### A new level of environmental friendliness

The PowerCube ReWirable sets a different standard for “green” products. We all know about recycling, which will degrade the product and material. Much more green is re-using old products!

Almost everyone has a drawer full of cables from old computers, printers, monitors, scanners, fax machines, etc. Why not turn them into power extension cords? In addition, you can choose your own cable length.

And in case you go on a trip, plug out the cable and use a cable with the plug of the country you travel to. Therefore you will never lose a travel adapter again, as you can use it as a standard power strip when you are at home. Optimal use of a product!

### PowerCube | ReWirable USB |

This version features 4 additional power outlets. Despite its compact design, power plugs are unlikely to block one another. At the back, the common IEC adapter can be found, so that you can use it with the additional plugs - or any cable you have laying around! Also offers the PowerCube ReWirable USB a dual USB-output. These USB ports enable the user to charge a cellphone, camera, MP3-player, GPS, etc... Nearly all electronic devices nowadays offer a USB-charging option.

### technical specifications

USB output (V)	2 x 5V
USB output (mA)	2100 mA (10W)*
Voltage	100-240V; 6A
Cable length	IEC Schuko cable 1m
Fuse	Yes
Outlets	4
Available socket types	Type A, B, D, E, F, G, I, A/I, N, O
Available plugs	DE/FR, UK, USA, AU
Standard color**	Orchid Purple / Trolley Grey

\* Able to charge all USB-charge enabled devices, including the iPhone and iPad

\*\* MOQ Customized packaging 5.000 pcs.  
MOQ Changing PMS color socket 5.000 pcs.  
MOQ Changing PMS color case 10.000 pcs.

# PowerCube Extended USB

## PowerCube | Extended USB |

This is the most extensive version of the PowerCube. It has a standard 1.5 meter extension cord fitted to it, so it can be mounted anywhere to have a power outlet within reach. To do this, a stick-on dock is included. An ideal location is your desktop: there is no more need to duck beneath your desk to plug in your laptop! This PowerCube also includes a powered USB port, so your mobile devices (including tablet computers!) can be recharged from your desktop.

### USB-output

The PowerCube Extended USB comes with powered dual USB ports. This enables you to charge a wide variety of devices, including tablet computers (like the iPad) and smartphones, right from your desktop without the need to power up a laptop or using a separate charger.

### technical specifications

USB output (V)	2 x 5V
USB output (mA)	2100 mA (10W)*
Voltage	100-240V;13-16A**
Cable length	1.5 - 3m
Mounting system	included
CableFix	included
Outlets	4
Available socket types	Type A, B, E, F, G, I, A/I, N
Standard color***	Trolley Grey / Kelly Green Cobalt Blue / Boston Red

\* Able to charge all USB-charge enabled devices, including the iPhone and iPad

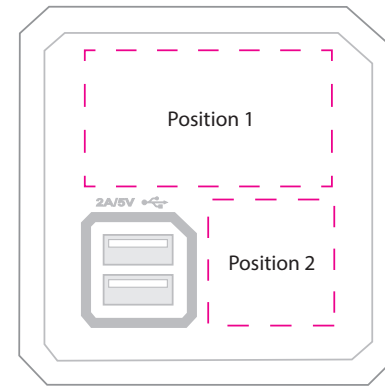

\*\* Depends on local legislation

\*\*\* MOQ Customized packaging 5.000 pcs.  
MOQ Changing PMS color socket 5.000 pcs.  
MOQ Changing PMS color case 10.000 pcs.

# packaging

## Packaging

The packaging is very important, as it is the first impression a potential buyer gets of our products.

Therefore, we put as much care in the packaging design as into the design of our products. The packaging of most of our products is made of high quality polypropylene, a recyclable material known for its strength and qualitative appeal. Also, several parts of the packaging are semi-transparent or even cut-out. This will prevent it from being opened on the shelves, as customers may want to check the product and its color before buying it. Also, as one of the sockets is open, it is very easy to check what socket version you are buying!

# Frequently Asked Questions

## How many PowerCubes can be combined?

In theory, the PowerCube can be extended infinitely, as long as the devices you connect do not draw more than the rating specified on the product. However, we recommend you to attach no more than two PowerCubes to one mounted PowerCube.

## Is the PowerCube safe to use with a power hungry device, like e.g. a microwave?

The PowerCube is as safe as any other power outlet, and built to last. Also, the PowerCube is fully grounded, and all sockets are child-proof.

## What differentiates the PowerCube from other power strips?

What differentiates the PowerCube is its versatility: it can be mounted anywhere with the unique docking system. Besides this, the PowerCube's design also ensures that plugs cannot block one another. So we created a completely new user experience for an existing product, making it user-friendly and more versatile.

## How long does it take to charge a device via the USB-output?

The USB ports provide 2.1A of power combined, quadruple the USB standard of 0.5A. As a result the charging time will be shorter than charging via a USB port on your computer. There is a built-in chip which detects how many devices are connected and adjusts the output according to this. So if only one device is connected, it will be able to use the full 2.1A output. If two are connected, they share this total output.

## Where can I find more information on the products of PowerCubes?

You are welcome to visit our website at [www.powercubes.eu](http://www.powercubes.eu). If you have more questions or would like us to assist you in any other way, please mail us at [info@powercubes.eu](mailto:info@powercubes.eu).
